

# AZURE Assignment 7 – Introduction to DevOps

## Roles

Saeedulkhair – 2212302

Luvai Yahya – 2212290

The screenshot shows the Microsoft Azure portal interface. On the left, the 'NewMachine\_group' Access control (IAM) page is visible, showing the 'Role assignments' tab. The page indicates that there are 3 role assignments for this subscription and 4000 roles. The 'Privileged' section shows 2 assignments. The 'All (2)' section shows two role assignments for 'Luvai Bhuriwala' (User) with the role 'Owner'. The main content area displays the 'Virtual Machine Contributor' role permissions. The 'Permissions' tab is selected, showing a list of permissions for the role. The permissions are categorized by 'Type' (Read, Write, Delete, etc.) and 'Permissions' (Get administrator, Get administrator operation statuses, etc.).

The screenshot shows the 'Add role assignment' dialog box in the Microsoft Azure portal. The dialog box is titled 'Add role assignment' and has tabs for 'Role', 'Members', 'Conditions', and 'Review + assign'. The 'Role' tab is selected, showing the 'Virtual Machine Contributor' role. The 'Members' tab is also visible, showing a list of members. The 'Assign access to' section shows 'User, group, or service principal' selected. The 'Members' section shows a list of members, including 'Luvai Bhuriwala (Guest)'. The 'Description' section shows 'Hello Saeed - Virtual Machine Contributor'. The dialog box has 'Review + assign', 'Previous', and 'Next' buttons at the bottom.

The screenshot shows the 'Virtual Machine Contributor' role assignment for 'Luvai Bhuriwala' (User). The role is assigned to the user, and the assignment is confirmed. The user's name and email address are displayed, along with the role name 'Virtual Machine Contributor'.
